This chart is a guide only - consideration should be made for the type of implement that will be fitted. * The cylinder mount fits to the tractor 'link' which is permanently fixed to the tractor.

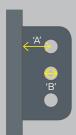

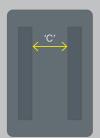

TO ORDER

Ordering a new MOTUS toplink is simple: Measure the dimensions A, B and C on your tractor ram mounting plates and tell us your tractor model and HP rating.

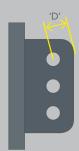

Finally, check whether you will need a custom spacer and we will recommend the appropriate size toplink.

- Measure distance 'A' from hole centre to back plate
- 2 Measure pin size 'B'

- **3** Measure distance 'C'
- 4 Tractor size and HP

Check whether you will need a custom spacer added to your ram: measure distance 'D' from the centre of the pin hole to outside top radius of mount plate

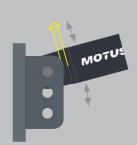

BEFORE USE

To ensure long toplink life, check clearances for free movement before use.

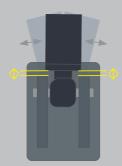

We recommend that you install your MOTUS toplink using the **top hole** in the mounting plates.

Double check clearance between ram and mounting plates

Check clearance between ram base and flanges on mounting plates

Check side to side clearance

OPTIONS

Quick hook CAT 2 \$252 CAT 3 \$352 Position indicator \$120

Hydraulic safety lock valve \$240 Knuckle base end CAT 1, 28mm, CAT 2, CAT 3 \$221

ACCESSORIES

Toplink hose kit \$120

Weld-on TL \$120

Knuckles \$221

Quick hook balls CAT 2 or 3 \$17.50

RAMS YOU CAN RELY ON

We invented and have been designing and building hydraulic toplinks in the Australasian market since 1963. MOTUS rams are built to last - in fact, rams we built in the 70s are still going strong.

MOTUS TOPLINKS FEATURE

- o Extra thick walled tube for strength and blowout resistance
- Unique cast iron floating head with a larger bearing surface
- o Special ports give you ultimate control over your implement
- A huge range of ball ends, knuckles and hooks is available
- Superior quality ball ends with highly accurate internal profile and hardened ball doesn't get sloppy
- Greater ball angle allows more freedom of movement for your implements

CUSTOM BUILD

Motus have a vast range of sizes available to suit virtually any tractor. If you need something special, call our helpful team and they'll guide you through our custom build service.

TRACEABILITY

A unique identification number is stamped into each ram for full traceability and parts backup.

4 YEAR WARRANTY

Backed by more than 60 years experience, we confidently offer a 4 year warranty on all of our toplinks.
